CENTRAL UNIVERSITY OF HARYANA

Subject: Department Related Parliamentary Standing Committee Follow up to Part - III Questionnaire

Sr. No.	Question	Reply
1	How has the unrest in Manipur impacted higher education there, including Central Universities in Manipur? What has the Higher Education Department done to resolve the issue?	Central University of Haryana has harmonics and congenial environment in the Campus. No impact has been noticed in the Central University of Haryana.
2	Faculty shortages remain a chronic issue, with 30-40% vacancies in central and state universities. How does the government intend to address this when the ratio of institutions per 100,000 people has stagnated at 31 since 2011?	At present, total sanctioned posts for teaching are 266. Out of which, 220 posts are filled. The percentage of filled posts is 82.70%. Few vacant posts have been advertised.
3	Dropout rates remain a serious concern, with the Dropout Enrollment Ratio (DER) showing that many students fail to complete their degrees. What systemic barriers-such as poor academic support, exclusionary admission policies, and lack of mentorship-are being addressed to improve completion rates?	Central University of Haryana has introduced a robust students support system to ensure equal opportunity and unhindered academic path for the students. The initiatives include— i. Relaxation of 5% to the SC/ST/PWD/OBC (Non-Creamy Layer) candidates in minimum eligibility criterion, ii. Tuition Fee exemption for SC/ST students, iii. Provision of fee payment in instalments for SC/ST students, iv. Earn While You Learn Scheme for needy students, v. Fee waiver for the needy students on case to case basis, Merit cum Means Scheme for meritorious students, vi. Students Counselling mechanism through Student Advisors/Mentor-Mentee system, vii. Anti-ragging cell, etc.
4	With automation and AI transforming industries, why are Indian universities still teaching outdated curricula? What mechanisms ensure that university programs remain future-proof and relevant?	The Central University of Haryana (CUH) is making remarkable strides in keeping its curriculum future-ready and industry-relevant , particularly in light of rapid advancements in Automation and AI . To bridge the gap between academia and industry, CUH actively promotes Faculty Development Programs (FDPs) , enabling faculty members to collaborate with industry experts and stay updated on the latest technologies and trends. These programs empower faculty to integrate cutting-edge tools and practices into their teaching. Additionally, Engineering departments of the university adhere to AICTE (All India Council for Technical Education) guidelines, which recommend regular curriculum updates to reflect evolving industry demands. To implement these changes effectively, CUH

		<p>organizes staff council meetings and Board of Studies (BoS) sessions, where faculty members, subject matter experts, and industry professionals collaborate to review and revise the scheme and syllabus. These boards ensure that the curriculum aligns with current industry standards and technological advancements. Moreover, CUH encourages its students to attend workshops and seminars on emerging technologies, providing them with hands-on experience and keeping them aligned with industry trends.</p> <p>For instance, CUH students benefit from remote learning opportunities through platforms like NPTEL, a joint initiative by IITs, including IIT Delhi, and the Indian Institute of Science (IISc). This enables them to access high-quality online courses from premier institutions, enhancing their knowledge and skills without leaving their campus. To further support academic growth, CUH offers financial assistance to its faculty, staff, and students, promoting research, innovation, and professional development. The university also encourages students to enrol in Massive Open Online Courses (MOOCs) such as NPTEL, e-Gyan, and e-Swayam, providing access to diverse and globally recognized learning resources. To facilitate seamless digital learning, CUH is equipped with 24/7 high-speed internet connectivity of 1 GBPS through the National Knowledge Network (NKN), ensuring uninterrupted access to educational content and online platforms, thereby enhancing the overall learning experience. Additionally, CUH is introducing new technology-focused subjects such as Artificial Intelligence, Machine Learning, Data Science, Cloud Computing, and Block chain, ensuring students acquire future-ready competencies. By embracing FDPs, AICTE recommendations, BoS and staff council-led revisions, industry workshops, financial support, MOOC course facilitation, remote learning through NPTEL, high-speed internet, and the integration of emerging tech subjects, CUH is continuously evolving its curriculum to prepare students for success in the dynamic, technology-driven world.</p>
5	Government spending on sports infrastructure in higher education institutions remain negligible, despite the increasing importance of physical well-being and sports development. How does the government justify the low capital outlay on sports in universities,	The following construction works are in progress in the Central University of Haryana related to Sports:

	given the growing demand for sports scholarship and career opportunities in athletics?	<p>1. Synthetic Track (400 mtr) Sanctioned Amount by Central Govt. 7 Cr., University Share- 3.18 Cr. Project Completed-30 percent.</p> <p>2. Construction of Basketball Courts (02), Volleyball Courts (04), Lawn Tennis Courts (Clay) (04) Sanctioned amount- 45 lacs. Project completed-40 percent.</p> <p>3. Multi-purpose Hall (60m*40m*12.5m)- Sanctioned Loan Amount under HEFA- 16.53 Cr. Work yet to start.</p> <p>4. Proposals to be submitted to Central Government for All Weather Swimming Pool-50M</p>
6	Funding for arts and culture education has remained stagnant. With India's cultural heritage being a major asset, why is there no substantial investment in establishing dedicated Centres of Excellence for arts and humanities in universities?	The University has a dedicated School of Humanities and Social Sciences subsuming various departments such as Psychology, History, Political Science, English and Foreign Languages, Hindi, Sanskrit, Sociology and Journalism and Mass Communication, offering PG and research programmes. Besides, the Department of Psychology offers B.Sc Psychology also. The University has made the provision of Multiple Entry and Multiple Exit in all these programmes of study.
